FOOD INDUSTRIES

manufacturing and processing

A McGRAW-HILL PUBLICATION—ESTABLISHED 1928

Volume 2

January, 1930, to December, 1930

GENERAL ALPHABETICAL INDEX

January 1-48
February 49-96
March 97-144
April 145-192
May 193-240
June 241-288
July 289-336
August 337-384
September 385-432
October 433-480
November 481-528
December 529-574

A

Accidents and Accident Prevention:
Freeing candy making from accidents. W. D. Keefer 196

Advertising:
Anti-Sweet, dropped by "Luckys" (N) 88
Display cases for frozen foods *186
Group advertising in the balance (ed) 339
Has your product been misunderstood or misused? (ed) 195
Putting over an idea in a new way... 218

Agar takes its place as a food adjunct.... 123

Agricultural materials, industrial utilization of (ed) 7

Air Control:
Fan cooler has novel features (e).... 231

Alcohol:
Corn sugar seems big source of illicit alcohol. I. D. Foos (N)..... 189

American Arbitration Association:
Food trade associations aid group (N) 376

American Association of Cereal Chemists:
Convene at Chicago (N) 284

American Chemical Society:
Meeting (N) 477

American Society of Bakery Engineers:
Convention in Chicago (N)..... 191

American Society of Refrigerating Engineers:
Meeting (N) 283, 285

Apples:
Factors in canning that make for better pies. L. Charles Mazzola.....*111

Associations and Societies:
Federation of, advantages and disadvantages (ed) 6

Australia:
Stop Australian imports of many foods (N) 233

B

Bacteria:
Bacterial growth in meats (A) 416
Bactericidal properties of milk (A)... 322
Control of bacteria that grow during pasteurization (A) 272
In milk 91
More about thermophiles. W. D. Bigelow (F) 417
Number and type of bacteria in commercially prepared infant foods (A) 272
Significance of thermophilic bacteria in pasteurized milk (A) 416
Still more thermophiles. C. D. Ingersoll 562
Still more thermophiles. O. B. Williams 563
Thermophilic contamination of sugar. E. J. Cameron (F) 473
Thermophiles in sugar. C. D. Ingersoll 325

Bacteriology:
Bacteriological control in commercial canning (A) 369
Sugar refiner's opportunity (ed).... 98

Bag, the cotton. J. S. Graham..... *20

Bag filling machine (P)..... *372

Bakeries and Baking:
Acidity in angel cake (A) 368
Comparative fuel costs for bakeoven firing (A) 369
Dough evaporation a gold mine of revenue (A) 561
Electric baking from the economic side. E. D. Stewart *396
Equipment of wheels to give flexibility. E. B. Cox *354
Equipment seen at the Bakery Exposition *514
Gas-fired ovens for modern bread making. J. B. Neiler *105
Mapping a course for chemist in the food industries. A. A. Schaal.... 405
Mechanization of process control (A). 369
Oven fuels (A) 273
Oven for hams and the like 84
Oven emptied mechanically (P)..... 276
Pie crust (A) 369
Properly proportioning sugar to flour in cakes (A) 417
Roll divider and rounder (e) *422
Will household formulas open the way to that 1½ billion dollar cake market? (A) 369

Baking Powder:
Do baking powder residues exert injurious effects upon the growth and nutrition? (A) 513

Barrels:
Steel. Herman Merker 30
Wooden. Louis F. Horn 29

Beet drying (A) 80

Belts:
How to increase life and efficiency of belting. A. R. Glithero 353
Important problem of design (ed).... 243
Precision made belting (e) *520
Static eliminated on belt drives (e).. *374

Beverages:
De-alcoholized cereal beverages clarified (P) 421
Fruit (A) 81
Mixer and cooler (P) *518

Bierhaus & Sons:
Wholesale grocer and frozen foods.. 279

Biscuits and Crackers:
Controlled distribution insures freshness of retail stocks. Fred. Beers as told to O. F. Rost..... *550

Blanching:
Charging and discharging mechanism of vegetable blanching (P)..... 421
Dry treatment for blanching fruits and vegetables (P) 276

Bleaching:
Activated carbon; a modern purifying agent. C. L. Mantell..... *264
Chemical treatment by the milling industry. D. W. Kent-Jones 268

Boilers:
Determination of boiler water concentration (e) *328
Underfeed stoker for Scotch marine type boilers (e) *328

Book Reviews:
American industry and commerce. E. D. Durand 517
Annual survey of American chemistry. Ed. by C. J. West 324
Bacteriology. Stanley Thomas 419
Bakteriologische Fleischbeshau. R. Standfuss 228
Between two ovens. M. T. Zarotschenzeff 418
Campbell's book. C. H. Campbell... 274
Cane sugar handbook. Spencer & Mead 82
Chemical engineering catalog..... 82
Cocoa and chocolate industry. A. W. Knapp 419
Comprehensive survey of starch chemistry 83
Confectionery problems. Stroud Jordan 274
Co-operative marketing of fluid milk. H. Metzger 370
Finding and stopping waste in modern boiler rooms 228
Food preservation. W. W. Chenoweth. 370
Food products directory of the Pacific Coast and Rocky Mt. States..... 228
Frozen and chilled meat trade 324
Fruit markets in Eastern Asia. Crocheron & Norton 418
Grindrod impact sterilizer, the. G. H. Hucker and A. M. Hucker 83
Handbook of chemical microscopy. Chamot & Mason 517
Index to the chemical action of micro-organisms on the non-nitrogenous organic compounds. Fulmer & Werkman 517
Manufacturing costs and accounts. A. H. Church 563

(A) Abstract. (e) Equipment. (ed) Editorial. (F) Forum. (P) Patent. (N) News.

De-alcoholized cereal beverages clarified (P) 421
Fruit (A) 81
Mixer and cooler (P) *518

Bierhaus & Sons:
Wholesale grocer and frozen foods.. 279

Biscuits and Crackers:
Controlled distribution insures freshness of retail stocks. Fred. Beers as told to O. F. Rost..... *550

Blanching:
Charging and discharging mechanism of vegetable blanching (P)..... 421
Dry treatment for blanching fruits and vegetables (P) 276

Bleaching:
Activated carbon; a modern purifying agent. C. L. Mantell..... *264
Chemical treatment by the milling industry. D. W. Kent-Jones 268

Boilers:
Determination of boiler water concentration (e) *328
Underfeed stoker for Scotch marine type boilers (e) *328

Book Reviews:
American industry and commerce. E. D. Durand 517
Annual survey of American chemistry. Ed. by C. J. West 324
Bacteriology. Stanley Thomas 419
Bakteriologische Fleischbeshau. R. Standfuss 228
Between two ovens. M. T. Zarotschenzeff 418
Campbell's book. C. H. Campbell... 274
Cane sugar handbook. Spencer & Mead 82
Chemical engineering catalog..... 82
Cocoa and chocolate industry. A. W. Knapp 419
Comprehensive survey of starch chemistry 83
Confectionery problems. Stroud Jordan 274
Co-operative marketing of fluid milk. H. Metzger 370
Finding and stopping waste in modern boiler rooms 228
Food preservation. W. W. Chenoweth. 370
Food products directory of the Pacific Coast and Rocky Mt. States..... 228
Frozen and chilled meat trade 324
Fruit markets in Eastern Asia. Crocheron & Norton 418
Grindrod impact sterilizer, the. G. H. Hucker and A. M. Hucker 83
Handbook of chemical microscopy. Chamot & Mason 517
Index to the chemical action of micro-organisms on the non-nitrogenous organic compounds. Fulmer & Werkman 517
Manufacturing costs and accounts. A. H. Church 563

(A) Abstract. (e) Equipment. (ed) Editorial. (F) Forum. (P) Patent. (N) News.

Material handling equipment. E. J. Tournier 418
Meat through the microscope. C. Robert Moulton 130
Milk and milk products. C. H. Eckles, W. B. Combs and H. Macy 82
Modern methods of cocoa and chocolate manufacture. H. W. Bywaters 274
Most nearly perfect food. Sam J. Crumbine and James A. Tobey 130
Newer knowledge of nutrition. E. V. McCollum and N. Simonds 82
Outlines of biochemistry. R. A. Gortner 275
Post-harvest depression of wheat prices. Holbrook Working 275
Processing the Soybean. O. R. Sweeney 228
Relative digestibility of unsweetened evaporated milk, boiled milk and raw milk by trypsin in vitro. Wallen-Lawrence & Kock 419
Sanitary control of commercially prepared infant foods. G. J. Hucker and A. M. Hucker 274
Structural aluminum handbook 419
Theory of emulsions and their technical treatment. William Clayton 130
Transactions. Public Health Bulletin. 130
World wheat crop situation. M. K. Bennett 370

Bottles:
French bottling plant *304
Heat detecting milk bottle cap (P) .. 85
Paper milk bottle (P) 85
Vacuum sealed (P) *519
Washer for bottles *566

Boxes, wooden. Paul L. Grady *31

Bran. See Rice.

Bread:
Law void in Nebraska 94
New method of preparing. L. A. Rumsey *57
Roll-making machine (P) 133
Slicer feeds to wrapper continuously (P) *375
Speeding the dough period (P) 85
Use of buttermilk in overcoming alkalinity (A) 226

Burton, Laurence, now editor of Food Industries 531

Butter:
Butter as a colloid (A) 561
Storage butter (A) 368

C

Cacao:
Applying the principles of roasting to cacao. Geo. Defren 248
Continuous roasting of cacao beans. Geo. Defren 548
Improving cacao beans by extraction. Geo. Defren *499
Treating cacao beans lowers chocolate coating cost. Geo. Defren 399

Candy:
Distribution in the United States (A) . 272
Enrobing candy with nuts (P) 132
Freeing candy making from accidents. W. D. Keefer 196

Candy Making:
Coil-type candy cooker (P) *372
Confection clusters made mechanically (P) *373
Manufacturers face the facts (ed) .. 49
Mechanical divider for candy bars (P) 373
Thirty firms charged with lottery practices (N) 376

Canned Foods—
Consumption of principal canned vegetables (table) 400
Effects of drought on canning crop .. 426
Formula for descriptive grading. L. C. Mazzola 340
Grading foods by a descriptive method. L. Chas. Mazolla 214
Peaches—stabilization that stabilized (ed) 483

Canning Machines:
Can bodies fluted for nesting purposes (P) *564
Closing vacuumized cans (P) *519
Ends double-seamed to can bodies (P). *518
Filling cans with inactive gas (P) ... *518
Variable time cooker (P) *85

Canning and Preserving:
Aluminum in the preserving industry (A) 323
Apparatus for zone treatment of canned goods (P) *326
Canning irrigated peaches (A) 226
Canning poultry (P) 229
Cellulose and aluminum cans arouse interest 122
Commercial canners' short course. J. C. Burtner *255
Efficient systems of handling materials in California canneries. Earl D. Stewart *8
Equipment seen at the canners' exhibit *134
Factors in apple canning that make for better pies. L. Charles Mazzola .. *111
Government to study canning industry (N) 331
Treating pineapple with inert gas before canning (P) 519
Unloading can crates (P) 133
White potatoes canned (Picture feature) 362

Cans, tin. Food Industries Staff *23

Carbon:
Activated, a modern purifying agent. C. L. Mantell 207
Activated carbon: a modern purifying agent. C. L. Mantell *264

Carbon dioxide storage of fruits, vegetables, and flowers (A) 561

Carcasses:
Suspending animal carcasses (P) 132

Cartoning ice-cream (P) 229

Cartons and Containers:
Cardboard crate for fruit (P) *43
Corrugated cartons. H. H. Squire 19
Folding boxes. J. D. Malcolmson *18
Glass containers. Karl L. Ford *27
Paper cups. L. V. Keefe *16
Simplification of, makes progress (ed) 2

Case designed for frozen foods (E) *422

Casein:
Creating a market for a billion pounds of skim milk (ed) 290

Cattle:
Contagious diseases (ed) 387

Cellophane, what, offers foodstuffs. L. B. Steele 13

Cellulose:
Cans of cellulose and aluminum 122

Cereals:
Sterilized with ultra-violet rays (P) .. 564
Trends in consumption of cereal products. E. G. Montgomery 303
Mechanical pressure cooking of cereals (P) *327

Chain Stores:
Chains—but not fetters. O. F. Rost .. 503

Cheese:
"Cheese product" (N) 477
Making, to a formula. J. C. Marquardt *76
Processed cheese (A) 369
"Red spot" in cheese (A) 323
Science and air-conditioning make domestic roquefort production a commercial possibility. R. F. Flint ... 216
Why flexibility of manufacture is necessary to get maximum profit. R. A. Page *461

Cheese and chocolate, a food product (P) .. 85

Chemist:
How a chemist can best serve the food industries. A. A. Schaal 540
Mapping a course for a chemist in the food industries. A. A. Schaal 405

Cherries, effect of hydrogen ion concentration in the dyeing of (A) 81

Chewing gum as candy (N) 477

China—as a market for American foods. W. Buchler 210

Chocolate:
Apparatus for conching (P) 85
As a food (N) 477
Improving cacao beans by extraction. Geo. Defren *499
Quick tempering of large quantities (P) 420
Treating cacao beans lowers chocolate coating cost. Geo. Defren 399

Clarification, compound (A) 226

Cleansing and Sanitation:
Cleaning pans (A) 369

Closures for glass containers. S. Henry Ayers *36

Cocoa:
Applying the principles of roasting to cacao. Geo. Defren 248
Continuous process for milling and refining (P) 421
Cooling cocoa powder (P) *519
Improving cacao beans by extraction. Geo. Defren *499
Roasting cocoa beans (P) 420
Treating cacao beans lowers chocolate coating cost. Geo. Defren 399

Cocoa butter (A) 42

Coffee:
Continuous coffee roasting. E. D. Stewart 200
Method of vacuum packing coffee (P) *518
What flavor measurements reveals about keeping coffee fresh. Punnett & Eddy *401
Prices lowest in twenty years 89

Colloids:
Butter as a colloid (A) 561
Mill constructed of alloy steel (e) *279
Vertical colloid mill (P) 276

Coloring:
When a food color is called "certified" (ed) 482

Confectionery:
Assorted decorations for enrobercoated confections (e) *471
Coating with chocolate (P) *84
Mechanical formation of jelly-filled confections (P) *518
Role of molasses in cookie making. E. L. Stephens & A. M. Child 203
Spindle decorator for coated confections (e) *374

Containers:
Carton sealer with return mechanism for finished package (P) 421
Cellulose container being developed (N) 236
Fiberboard shipping case for citrus fruits (P) 229
Gives air circulation (e) 232
Glass containers for frozen products. P. R. Nelson & C. W. Lang 184
Glass-packed food display wins prize (N) 381
Paperboard containers for frozen foods. J. D. Malcolmson *155
Quick frozen foods (A) 226
Secret of the white deposit on glass containers of nuts. E. K. Nelson & H. H. Mottern 199
Shipping and display (P) 420

Containers. See also Packing.

Conveyors:
Profits are made or lost through materials handling. H. G. Wieland *442
Unique conveyor (e) *472
Well-planned conveyors of Borden's Farm Products. J. M. Swanson *554

Cookie production and manufacture (A) .. 227

Cooling and treating raisins and similar fruits (P) *43

Copper content of some animal tissues. Hellwig & Quam 411

Corn:
Frozen sweet corn. A. F. Yeager ... 279
Trend to "whole kernel" corn leads to crop experiments 504

Corrosion:
Acidity and corrosion in canned fruits (A) 323
Hypochlorite corrosion is cut by addition of salts and bases. G. N. Quam 121
Importance of traces of sulphur on corrosion of food containers. Clough & Shostrom 310
Sprayed metal coatings protect against corrosion. L. Pessel *412
Why do sodium hypochlorite preparations differ in corrosiveness? G. N. Quam 366

Cottonseed meal is rich in vitamin G 263

Costs:
Allocating costs in a complex field. F. O. Brown *388

Cutting machine (P) *564

D

Dairies, Equipment:
Equipping for efficiency. A. W. Huff. *459
Looking at the important details of plant design *451
New equipment improves refrigerating conditions in storage room. H. E. McGraw *508
Planning for today and tomorrow. G. C. Wieland *436
Profits are made or lost through materials handling. H. G. Wieland *442
Using byproduct power saves $7,000. yearly. Joseph Allweiler *438

Dairy Products:
Keeping fresh (P) 43
Retailer blamed for surplus stocks of butter and eggs (N) 330
Trends in consumption of dairy and poultry products. E. G. Montgomery *469
Why flexibility of manufacture is necessary to get maximum profit. R. A. Page *461

Dairy wastes (A) 272

Dates:
African dates. O. C. Zilisch *100
Stabilized production improves labor conditions. N. K. Eastman *484

Diet:
Food values and diet (A) 513
Present day knowledge of foods (A) 129

(A) Abstract. (e) Equipment. (ed) Editorial. (F) Forum. (P) Patent. (N) News.

Discoloration:
Cheese (A) 42
Display cases for frozen foods..... *186
Door opens automatically (e)..... *471
Dorrance, J. T., dies..... 479

E

Eggs:
Improving colloidal properties of egg products (P) 133
Out of the egg comes a growing industry. L. G. Conner (F)..... *52
Preserving egg yolks (P)..... 229
Separating whites and yolks of eggs (P) 277
Trends in consumption of dairy and poultry products. E. G. Montgomery *469

Electricity:
Electric baking from the economic side. E. D. Stewart *396
Relay operated by beam of light (e). *278

Employees:
College graduates (ed) 289
Fatigue reduction increases profits. C. O. Sappington 536
Important problem of design (ed)... 243
Stabilized production improves labor conditions. H. E. Eastman..... *484
Try it yourself (ed)..... 290

Emulsions:
Emulsions (A) 227
Emulsion stabilizer (e) 231

Equipment:
Putting equipment on wheels to give flexibility. E. B. Cox..... *354

Ergosterol:
Preparation and antirachitic activation of some derivatives of ergosterol and cholesterol (A) 513

Exports:
China as a market for American foods. W. Buchler 210
Foodstuffs exports in 1929..... 120

Extracts:
Improving cacao beans by extraction. Geo. Defren *499

F

Factories:
Keep the log book going (ed)..... 242
Reconstructing idle buildings. H. R. Parker *69

Farm Relief Act:
Co-operation and control (ed)..... 98
Fats. See Oils and Fats.

Fermentation:
Fermentation tolerance in baking (A) 129
In food manufacture. H. T. Herrick 488
Figs, inspecting the interior of (P)..... *85

Fillers:
Automatic filling and sealing machine (e) *374
Piston displacement filling machine (e) *329

Fish:
Canada experiments with "Ice Fillets." R. A. McKenzie & J. W. R. Harkness *176
Filleting of small fish (P)..... *373
Fish steaks, standardized production in standardized package. H. F. Taylor *545
Freezing fish by the Birdseye system. E. Scott Pattison..... *159
How fillets are frozen by the Cooke method. Laurence V. Burton..... *152
Imported sardines seized under Anti-Trust act (N) 333
Japanese fish oils (A)..... 323
Kolbe installation at the Gorton-Pew Plant. Thomas J. Carroll..... *169
More fish frozen last year; large gain cured fish (N)..... 189
Sardines in oil (A)..... 416
Solving the problems of rapid freezing. Harden F. Taylor *146
Where the Peterson rapid-freezing systems stand today *173

Flavoring Extract Mfgrs. Assn.:
Meeting considers trade relations (N) 283
Floor scrubber (e) *520

Flour:
Baking characteristics of the new soft winter wheat flour (A)..... 561
Baking test (A) 81
Bleached by means of enzymes. J. D. Vernon 59
Chemical treatment by the milling industry. D. W. Kent-Jones..... 268
Commercially and experimentally milled flours (A) 368
Defined by Dept. of Agriculture..... 425
Soya bean, as briquet binder (P).... 43

Fluids:
Automatic determination and recording of specific gravities (P)..... 420
Foil, metal. W. C. White, F. H. Drexler 21, *22
Food analyses (A) 80
Food committee (A) 273
Food consumption—changing habits. E. G. Montgomery 270

Food Laws and Legislation:
Congress enacts laws (N) 378
Enforcement of laws strict in eastern canneries 425
Federal food law must not be weakened (ed) 386
Margarin bill passes by Senate: other food legislation (N) 281
Pending federal legislation of especial significance (ed) 2
Freezing. See Refrigeration.
Fruit juices, preserving (A) 42

Fruits:
Bottled citrus juices (A)..... 128
Citrus fruit essences (A) 42
Citrus fruit-juice extractor, gravity feed (P) *372
Drying of fruits (A) 273
Freezing of fruits and vegetables requires more research. H. C. Diehl. 162
Freezing peaches for table use (Picture feature) 410
Glass containers for frozen fruit products. P. R. Nelson and C. W. Lang 184
Grading foods by a descriptive method. L. Chas. Mazzola 214
Legal limitations of sulphur dioxide in dried fruits 510
Major trends in consumption of fruits and vegetables. E. G. Montgomery. 364
Packing citrus fruits. E. D. Stewart. *292
Packing fruits in baskets (P)..... 133
Pasteurized dried fruits (A) 227
Pasteurized dried fruits (A) 273
Protective coating for citrus fruits (P) 132
Refrigeration in connection with frozen berries. C. T. Baker *180
Removing spray residue from (P)... 84
Treating citrus, while frozen (P).... 85
Washing fruit to remove spray residue in the Hudson Valley (A) 272
Why freeze fruit in sirup? M. A. Joslyn 350

Fruit Juices:
Cleanliness plays big part in new fruit juice process (N) 88
Fuel pulverizer (P) 420

Fumigation:
Everybody's problem. Stroud Jordan. *305

G

Gelatine:
Economical materials handling features gelatine manufacture. C. R. McKee *258, *318
Grinding spray-dried (P) 132

Ginger:
Sales hurt by "jake" scare (N).... 333

Glass Container Association:
Meeting (N) 280

Glassine and wax papers. H. A. Stone.... 14
Grader, automatic, for peas (P) 43

Grading Foods:
Descriptive method. L. C. Mazzola.. 214
Formula for descriptive grading. L. C. Mazzola 340

Grain:
Magnetic separator (e) *136
Treating grain for the destruction of injurious insects. Laurel Duval.... 541

Grapes:
Pectin in grapes (A) 273
Grinder, apple (P) 230

H

Hams:
Loss in hams preventable by proper chilling (N) 190
Heater washes and humidified (E)..... *86
Heating by diffusion *565
